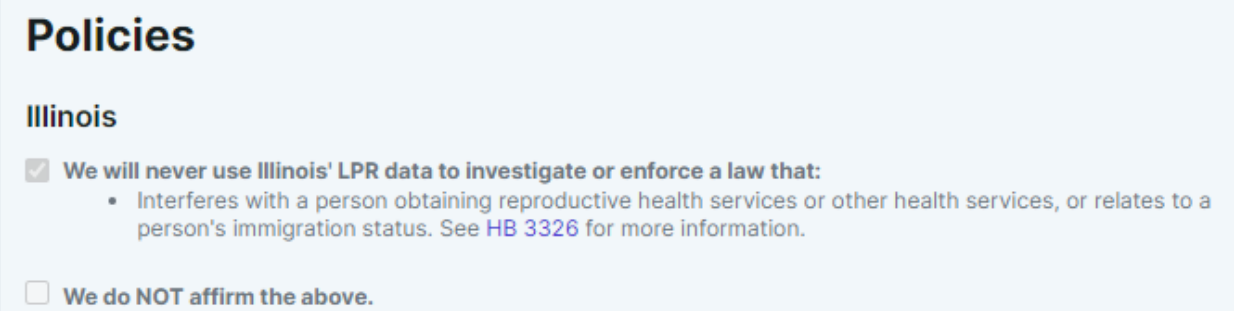
Good morning,

Even though I don't foresee us needing the Illinois database, I affirmed the policy just in case we ever do.



Policies
Illinois
We will never use Illinois' LPR data to investigate or enforce a law that:
Interferes with a person obtaining reproductive health services or other health services, or relates to a person's immigration status. See HB 3326 for more information.
We do NOT affirm the above.

This can be changed if there are any issues.

Thank you,

Dear CA - Santa Maria PD,

This is a reminder that your agency needs to take immediate action to affirm your compliance with Illinois House Bill 3326 (HB 3326). The deadline for confirming your stance is swiftly approaching, and we want to ensure you retain full access to Illinois' ALPR camera network.

Don't Miss the Deadline: Confirm by Monday 12/26/2023

To avoid any disruption in access, it is crucial that your agency complies with the new policy requirements by Monday, December 26, 2023. After this date, agencies that have not indicated their compliance will lose access to Illinois cameras and related features.

Easy Steps to Ensure Compliance:

1. Log in to your Flock Safety Organization Page.
2. Go to the 'Policy' section.
3. Select the appropriate compliance checkbox:
    - We will never use Illinois' LPR data to investigate or enforce a law that interferes with a person obtaining reproductive health services or other health services, or relates to a person's immigration status. See HB 3326 for more information.
    - We do NOT affirm the above

The Importance of Your Selection:

- Compliance: Maintain your current and future access to Illinois cameras and the National Lookup features.
- Non-Compliance: Your agency will lose access to vital ALPR functionalities.
